

CODECHEF

The CodeChef.com Challenge, your monthly dose of coding puzzles from India's biggest coding contest, is now in print!

*H*ello and welcome to the CodeChef Puzzle Challenge sponsored by *LINUX For You* and Directi! Now, let's see how many of you can solve this month's puzzle and go on to become one of the three lucky winners to bag some awesome prizes, both in cash and merchandise!

The June edition's puzzle

A frog is at the bottom of a 30 metre well. Each day it summons enough energy for a 3-metre leap, up the well. Exhausted, it then hangs in there for the rest of the day. At night, while it is asleep, it slips 2 metres backwards. How many days will it take to escape from the well?

The solution

The frog takes 28 days to escape out of the well.

How did we do it?

The frog leaps 3 meters every day and slips back 2 meters at night. Essentially, the frog covers one meter a day. But on the 28th day when he leaps 3 meters, he finds himself out of the well!

And the winners this month are:

- Gunjan Gupta
- Salvadesswaran Srinivasan
- Pramod Gupta

Your Codechef Puzzle Of The Month

If you recall, the May 2011 puzzle was about a rich merchant who had 32 gold coins. This month he is in urgent need of our help. He has placed his gold coins in a locker, only to realise that he has forgotten the number combination that opens the locker! He however finds five clues that can help him remember the code:

1. The 2nd number plus the 3rd number equals 10.
2. The 1st number is one less than twice the 2nd number.
3. The 4th number is one more than the 2nd number.
4. The 5th number plus the 3rd number equals 14.
5. The sum of all 5 numbers is 30.

What were the 5 numbers? Arrange them in the order wherein they would work as the locker's password.

Looking for exciting prizes?

Solve this month's CodeChef Challenge puzzle and send in your answer by the 15th of July, 2011, to codechef@efyindia.com. You can also post your answer to the puzzle online at <http://www.linuxforu.com/codechef/>. Three lucky winners will get exciting prizes both in cash and merchandise! 

About CodeChef: CodeChef.com is India's first, non-commercial, online programming competition, featuring monthly contests in more than 35 different programming languages. Log on to CodeChef.com for the June Challenge that runs from the 1st to the 11th of July, 2011, to win cash prizes of up to Rs 20,000. But that's not all. Stay tuned to CodeChef and participate in the multiple programming contests that take place on the website throughout the month!
