

Update Customers Immediately by Transactional SMS !

MYTODAY
mConnector
Middleware between DB & SMSC

CONTACT FOR FREE TRIAL!

Call: 022-6662 8000 | Email: sales@netcore.co.in

MyToday mConnector is a Middleware between a Database (any JDBC compliant DB) & SMSC (Short Message Service Center). It is installed within your corporate network, connects & pushes / pulls data from your DB, personalizes using a pre-designed template configured on the mConnector & sends it to SMSC for delivery to customers & track with detailed reports.

Features & Benefits

- Easy Configuration with readymade configuration templates. No API coding required.
- Database heterogeneity ensures data can be pulled / pushed from variety of DB's including excel sheet.
- Schedule & Personalize SMS with contacts data & pre-designed templates
- Track delivered & undelivered reports.
- NDNC checks off due to its transactional nature.

Partial Clientele List
