Ashok Gautam Fedora's XFCE remix would be great as well.
Archlinux for advanced users.

help me to download nd instal VLC media player..instruction code???...

Like · Comment · 24 hours ago

Kevin Fitzpatrick What do you mean by instruction code? It's at <http://www.videolan.org/> & there's diff versions for diff OS's

please tell me HOW TO INSTALL ADobe FLASH PLAYER BETAHEL 6

Like · Comment · 10 hours ago

Anil Veerma flash plugin-10.2.559.1-release (96 rpm) download it from net, next install it as follows: rpm -ivh flash-plugin-10.2.559.1-release (96 rpm).
9 hours ago · Like

Anil Veerma if your system is connected to net, try the following command: yum install -y flash-plugin [press enter] at terminal.

S Dayal Shri Linux is a hard nut to crack. Requires more willpower. X
But the experience is well worth.
11 hours ago · Like

S Dayal Shri you have to be very methodical in approach. Buy the book "Unix Programming Environment" by Rob Pike
11 hours ago · Like

Ijer Frenghi thank you friend
I am like a blind man who does not know the stepping, but you've given me in the right direction I am very thankful to you.
hopefully I'll get that book
