

# CODECHEF

The CodeChef.com Challenge, your monthly dose of coding puzzles from India's biggest coding contest, is now in print!

*H*ello and welcome to the *CodeChef Puzzle Challenge* sponsored by *LINUX For You* and DirectU! Let's see how many of you can solve this month's puzzle and go on to become one of the three lucky winners to bag some awesome prizes, both in cash and merchandise!

## The September edition's puzzle

Long, long ago in a village, an annual animal fair used to take place where only elephants, horses and sheep were sold. In one such fair, the price-list for these animals was as follows:

One elephant was available for \$5.

One horse for \$1.

And 20 sheep for \$1.

A merchant sent his servant with \$100 to the fair and instructed him to buy 100 animals with the money, on the condition that the servant had to spend all the money he was given, and there had to be at least one animal of each kind in the lot that he bought with that money.

How do you think the servant carried out this task?

## The solution

The servant bought 19 elephants, 1 horse and 80 sheep.

Total number of animals =  $19 + 1 + 80 = 100$

## How did we do it?

Total cost =  $(19 \times 5) + (1 \times 1) + (80 \times 1/20)$   
 $= 95 + 1 + 4$   
 $= 100$

## And the winners this month are:

- Mayank Singh
- Neeraj Joshi
- Loel Sequeira

## Your CodeChef Puzzle Of The Month

Two friends took their sons fishing.

Each man and son caught one fish, but when they returned to the camp, there were only 3 fish. How could this be?

(None of the fish were eaten, lost, or thrown back.)

## Looking for a little extra cash?

Solve this month's *CodeChef Challenge* puzzle and send in your answer by October 15, 2011, to [codechef@efyindia.com](mailto:codechef@efyindia.com). You can also post your answer to the puzzle online at <http://www.linuxforu.com/codechef/>. Three lucky winners will get exciting prizes, both in cash and merchandise! 

**About CodeChef:** CodeChef.com is India's first, non-commercial, online programming competition, featuring monthly contests in more than 35 different programming languages. Log on to [CodeChef.com](http://CodeChef.com) for the October Challenge that runs from October 1 to 11, to win cash prizes of up to Rs 20,000. But that's not all. Stay tuned to CodeChef and participate in the multiple programming contests that take place on the website throughout the month!
