

A List Of Internet Service Providers

Aircel | Gurgaon

Aircel Business Solutions offers high performance Internet leased-line services for its customers, for any kind of last mile connectivity. With monitoring tools to check, measure and monitor the backbone, Aircel allows its customers to buy the bandwidths as per requirements and deploys the last mile connectivity over Wimax, fibre or P2P radio. Aircel Business Solutions currently offers the following services like premium Internet bandwidth, shared Internet bandwidth, Preferred Route Internet and Data Centre Internet to its small business and enterprise customers.

AT&T, India | New Delhi

AT&T is an Internet service provider offering high speed Internet, DSL and broadband. Connecting one's home or business with the VoIP service from AT&T is easy, as it comes with remarkable voice quality, powerful new features and comprehensive savings. Business DSL from AT&T offers high-bandwidth Internet access at speeds significantly faster than dial-up access, but at a fraction of the cost of T1-based access. It also comes with multiple options for speeds and configurations, and nationwide reach over the AT&T IP backbone.

Bharat Sanchar Nigam Ltd | New Delhi

This is one of the leading Internet service providers with more than 1.7 million subscribers, providing Internet services branded Sancharnet throughout the country (except in New Delhi and Mumbai). Sancharnet provides free all-India roaming, and enables its users to access their accounts with the same access code (172233) and user ID from anywhere in the country. In order to make Internet available throughout the length and breadth of the country, Internet dhabas are being commissioned at all the block headquarters. BSNL has also started DIAS and account-free Internet access (CLI based) facilities in a few select cities recently.

Bharti Airtel Ltd | New Delhi

The company is a leading global telecommunications company with operations in 20 countries across Asia and Africa. Headquartered in New Delhi, the company's product offerings in India include 2G, 3G and 4G wireless services, mobile commerce, fixed line services, high speed DSL broadband, IPTV, DTH, and enterprise services including national and international long distance services to carriers. In the rest of the geographies, it offers 2G, 3G wireless services and mobile commerce. The company claims that it had over 269 million customers across its operations, as of the end of March 2013.

Broadband Pacenet India Pvt Ltd | Mumbai

This is an Internet service provider with a pan-India presence in the seven cities of Mumbai, Delhi, Kolkata, Hyderabad, Vadodara, Indore, Jaipur, Dhule and Pune. Its services include high-speed Internet broadband services, Internet leased lines for enterprises and SMEs (both wired and wireless), VoIP, data storage co-location services, audio and video conferencing, metropolitan security networks, bandwidth on demand, etc.

Hathway Cables and Datacom Ltd | Mumbai

As a leading service provider, Hathway offers a gamut of dedicated broadband solutions at competitive prices with quality performance and features. It provides cable services in 125 cities while broadband services are provided in 18 cities. The highlights of its services include static IP addresses which can be used for applications like Internet servers (Web servers, mail servers, FTP servers, etc), secured networks, 24x7 dedicated customer support services,
