

YOU SAID IT

A request to bundle Mandriva DVD

I am a regular reader of OSFY, living in Shirur in Maharashtra, and I would like to thank you for providing such useful content on Linux and other open source technologies in your magazine. I'm still using Mandriva Linux, which I received with LFY's September 2010 issue. Mandriva is a very user-friendly Linux distro. It also comes with all the required software, which can be installed, as needed. Could I request you to bundle the latest release of Mandriva? I'll be very thankful to you, if you could. Waiting for your positive response!

On writing for OSFY

I love reading OSFY and it has inspired me enough to want to write for your magazine. Can you please let me know how I should go about things like where I should submit my articles?

ED: It's great to hear of your interest in writing for us! It feels good when enthusiastic authors like you wish to pen an article for us. Before doing so, you can send us a detailed 'Table of Contents' (ToC) at osfyedit@efyindia.com for the topic you want to write on. Our team will review it and once they give you the thumbs-up, you can go ahead with the article. Please feel free to get in touch if you need anything else from us.

Content on Eucalyptus Private Cloud

Mayur S Patil: I have grabbed a copy of OSFY's October 2013 issue and I am enjoying reading it. I have a small request to make. In your upcoming editions, it would be great if you could focus on Eucalyptus Private Cloud from a developer's perspective. It would be a great treat for the cloud computing fraternity.

Open Source For You: The OSFY team is constantly trying its best to come out with a variety of articles and will continue to do so, always. We love to hear from our readers about the content of our magazine and try our best to match their expectations. Our November edition has the article on what you requested!

Loved reading the kernel issue!

Eugene Markow: I can never get enough of the Linux kernel. This edition was indeed a good one. Thanks to the OSFY team members for bringing out this issue. Looking forward to more such editions.

Open Source For You: Your feedback has made us very happy indeed and at the same time motivated us to deliver more such content to our readers.
