Get a 'musical' high with Rapoo's Bluetooth stereo headset

If you have an ear for good music, here's some news that will surely give you a high. Rapoo, the brand that provides cutting-edge wireless peripheral products, has come out with touch-controlled Bluetooth stereo headphones—the H6060, which has the Bluetooth 2.1+EDR wireless transmission protocol. It also has the DSP noise cancellation technology and echo suppression technology to provide a high quality stereo experience. That apart, the H6060 headphones can automatically switch to calling mode when there is a call, even while you are tuned to your favourite song.

It has a great bass effect and is the optimum choice for all kinds of users, because of its good style and quality. When we caught up with Sunil Srivastava, manager, Sales and Marketing, at Rapoo India, he said, "We, at Rapoo, are constantly striving to put in our best to design devices that are meant for all kinds of consumers. This headset is high on comfort and the flexibility factor, and is meant for music buffs who are always on the move. In a nutshell, music lovers can multi-task with ease, while they are driving or travelling."
