

Kyocera launches FS-1040 printers

Kyocera Solutions Company launched its EcoSys FS-1040, the next gen printers for domestic/SOHO purposes, in the capital recently. With an outstanding flexible paper-handling capability and an output capacity of 20 pages per minute, the EcoSys FS-1040 is one of the finest options to hit the market in its segment.

The printer can handle up to four different paper sizes, including coated and uncoated paper, and a range of paper weights. In addition to the flexible and effective paper handling and output capacity, the EcoSys FS-1040 provides you with supreme quality printing at an optimum speed, assuring you of a high duty cycle. Its separate drum and toner technology is able to handle large print jobs without interruptions since the paper trays are equipped to handle the input capacity of 250 sheets.

K Swetharayan, MD, Kyocera Document Solutions India, says, "These printers provide the best quality of printing with unique energy saving features, and substantially lower running costs compared to other similar printers. They are loaded with advanced multi-function facilities to meet the needs of today's dynamic office environment."
