Here comes Jabra's plug-n-play Bluetooth speaker

Jabra SPEAK 510 is a portable Bluetooth speaker that can be connected to any PC, smartphone and tablet. So you can just plug-n-play this speaker and use it on the move or at home, either to listen to music

or while attending conference calls. Jabra SPEAK 510, a portable unified communications speaker, offers a wireless connection to PCs, tablets and Bluetooth enabled mobile phones and headsets, giving enhanced mobility with up to a 100 metre range for Class 1 supported devices. Featuring Bluetooth technology, the Jabra SPEAK 510 enables even more user flexibility and meets increased demands for mobility, at home, in the workplace or on the go. Ralph Ede, managing director, South Asia, Jabra said, "The SPEAK 510 is compatible with all existing operating systems including Linux, iOS, Windows, Android and others. Users can also connect to the Jabra PC suite to upgrade the device drivers. They can also get the drivers for upcoming smartphone operating systems like Ubuntu Phone OS, Firefox OS and others."

Samsung brings out Galaxy Grand in India

After much speculation, Samsung has finally launched its Galaxy Grand smartphone in India. The Galaxy Grand is a dual SIM smartphone featuring a 12.7-cm (5-inch) WVGA display and runs Android 4.1 (Jelly bean) out of the box. The Grand is based on a 1.2 GHz dual core processor along with 1 GB RAM and offers 8 GB on-board storage, which is expandable up to 64 GB via microSD card. The smartphone comes with an 8 MP rear camera and a 2 MP front-facing shooter for video calling. This device will offer A-GPS and GLONASS support, as well as Wi-Fi and Bluetooth 4.0. Grand is loaded with a 2,100 mAh battery. "The Galaxy Grand is revolutionary not only in terms of the smartphone experience that it provides, but also in terms of its value

proposition. The Galaxy Grand best meets the growing consumer preference for a large screen device that gives them a great multimedia experience and superior performance," said Asim Warsi, vice president, Samsung Mobile.

Intex joins the Jelly Bean brigade!

Intex has launched its first Android Jelly Bean-based smartphone called Aqua Wonder. This phone comes with an 11.4-cm (4.5-inch) qHD IPS display and runs Android 4.1 (Jelly bean). The Wonder is powered by a 1 GHz dual-core processor and 512 MB RAM. Intex has fitted the Aqua Wonder with an 8 MP rear camera (with auto-focus and dual flash) and a 1.3 MP front-facing camera for video calling. The device has an internal storage capacity of 2 GB, which is expandable up to 32 GB via microSD. For connectivity, Aqua Wonder supports Wi-Fi, 3G, Bluetooth, USB, dual-SIM and other features like G-Sensor and GPS. "Intex has loaded the smartphone with a 1,800 mAh battery. The phone comes with features such as Hot Spot, the latest IPS display screen, etc. With Aqua Wonder, we will be targeting the youth segment," said Sanjay Kumar, general manager, Mobile Business, Intex Technologies.
