

You can now make a call from your 3G dongle

Yes, you read it right! You can make phone calls from your 3G dongle as well. Inspan Infotech has come up with 3G dongles with voice calling support. The Mercury M720V and M720D dongles come with an additional voice calling feature that allows calls through PCs, laptops and tablets. These dongles are compatible with not only all the Windows OS versions (2000, XP, Vista, 7) but also Linux and Mac OS. "The Mercury M720V and M730D dongles are feature rich and are independent of the telecom providers. You can use a 3G enabled SIM from any telecom provider and these dongles give customers an instant connection," said Sudhir S, managing director, Inspan Infotech. The company has priced the M730D at Rs 1,550 and the M720V at Rs 1,650. Both the dongles come with a one-year warranty.

Price: ₹ 1550 (M730D); ₹ 1650 (M720 V);
