A floor-standing Monster Tower speaker from Zebronics!

If you have an ear for music, this news is for you! Top Notch Infotronics, owner of the brand Zebronics, India's leading supplier of products and accessories for computers, consumer electronics and communications, has launched its latest model in the Tower Speaker series – the floor-standing Monster Tower speaker. The Zebronics Monster Tower or the ZEB-BT8000RUC delivers up to 50W RMS of sound in a unique single-box form-factor that dominates the room. The speaker is compatible with Linux, Windows and Mac.

A distinctive design feature of the Bluetooth Tower Speaker are the four 7.62 cm (3-inch) drivers on all sides of the box, for a 360-degree surround sound experience complementing a 12.7 cm (5-inch) sub-woofer. The Bluetooth connectivity feature in this model is a first for the Zebronics Sound Monster speaker line-up, and enables wireless input from any playing source with Bluetooth functionality. "This new speaker, which we have named 'Dabang', is the first to feature Bluetooth connectivity. Though a single-box form factor, the four-sided throw of the Dabang speaker produces high resolution audio quality, offering more vigour to any music track – all at an extremely affordable price point," said Pradeep Doshi, director, Top Notch Infotronics.

Price: ₹ 4,999

The Lava Iris 455 packs a punch with Jelly Bean OS!

The Lava Iris 455 smartphone is the latest arrival in the Iris family and what distinguishes it from the rest of its competitors is that it runs on the latest Jelly Bean. The phone comes with an 11.4 cm display and has a dual-core processor clocked at 1 GHz along with 512 MB of RAM. The phone is fitted with a 5 MP rear camera with a flash and a VGA front-facing snapper for video calling. We caught up with S N Rai, co-founder and director, Lava International Ltd and he said, "It becomes challenging for us to cater to those consumers who are looking for a higher performance in their devices. The smartphone has a very stable performance chip-set. Lava has a large distribution base and offers value for money in its products, so we hope users will like it."
