

The first convertible tablet-laptop launched by WishTel

WishTel's first convertible tablet laptop, the 'IRA Capsule', features a 25.6-cm (10.1-inch) LED multi-touch screen and runs the latest Jelly Bean OS. The device is powered by a 1.6 GHz dual-core processor, coupled with 1 GB RAM. The hybrid tablet sports a 5 MP rear camera and 0.3 MP front-facing snapper for video calls. With its chic looks, the device also comes with a powerful 8,000 mAh battery. Milind Shah, chief executive officer, WishTel, said, "We wanted to give our consumers an enhanced mobile computing integrated product and so we came up with IRA Capsule. This product not only offers a long battery life but is also meant to enrich the viewing and learning experience."

WickedLeak Wammy Titan 2 phablet hits markets and gets Android 4.2 update

WickedLeak has come up with yet another Android phablet—the Wammy Titan 2. The news that will excite all phablet fans is that the company has recently announced an Android 4.2 update for the quad-core phablet. The Titan II sports a 13.4-cm (5.3-inch) qHD display and runs Android 4.1 (Jelly Bean) with an Android 4.2 upgrade promised by the company. The phone is powered by a 1.2 GHz MediaTek quad core processor, coupled with 1 GB RAM. The Titan II also comes fitted with a 12 MP rear camera and a big 5 MP front-facing shooter. It comes with an internal storage capacity of 4 GB, with a microSD card slot. Shares Aditya Mehta, CEO, WickedLeak, "We are the first company to give the Android 4.2 update in the budget space. Android lovers crave to experience the best and the latest, and they don't always get it, so we decided to power our product with 4.2."

Price: ₹ 13,990

LG brings out Optimus L3 II Dual

The LG Optimus brigade got a shot in its arm with the launch of the new Optimus L3 II Dual in India. According to LG Electronics, the successful L-Series has evolved to include contemporary design aesthetics and innovations that improve on the original. The LG Optimus L3 II Dual sports an 8.1 cm (3.2 inch) IPS display and comes powered with a single-core 1 GHz processor. It packs in a 1,540 mAh battery and runs the latest Android Jelly Bean. The dual SIM device also has a 3 MP rear camera and 4 GB of internal storage. The smartphone comes loaded with features like Smart Forwarding, which helps manage calls between both the SIMs. As we caught up with Amit Gujral, head, Marketing, LG Mobiles, he enthused, "There is a growing need among consumers for a smartphone that takes care of their daily convergence needs. The LG Optimus L-Series II smartphones address those very needs by providing ample features like full IPS display, the latest version of Android (Jelly Bean), an excellent camera and a host of useful apps like Quick Translator, Quick Memo, QSlide, Cheese Shutter Camera, etc, and of course, loads of apps from the Google Play Store."
