Boost your smartphone's battery with Portronics' power bank

Now you don't need to fret when your cell phone switches off in the middle of an important conversation. Portronics has launched what it claims is the world's first power bank with a foldable mobile stand—Power Cradle. This portable charger works both as a power bank and a stand, which helps you firmly hold your device upright while watching a movie. The Power Cradle is indeed portable and uses a 2600 mAh high-capacity lithium ion battery. The overall design of the charger is made using classical mature charging circuit structure which pays more attention to all details and is sufficient to ensure that the products are safe. Power Cradle has over-current protection, over charge protection, over voltage protection, under-voltage protection and short circuit protection. It is protected against high/low voltage and electricity surges. It weighs merely 75 grams and offers 10 hours of battery life for 3G users and up to 18 hours for 2G users.

Price: ₹ 1,299

Make learning fun with the 'Swipe Junior' kids' tablet

At a time when tablets are becoming a must-have device for the kids, Swipe Telecom has capitalised on the booming market and designed a smart tablet for children. Priced at Rs 5,990, the tablet runs on Android 4.1 (Jelly Bean) and sports a 17.7-cm (7-inch) HD display with a 1024 x 600

pixels screen resolution. Powered by a 1 GHz processor, the device has 4 GB of internal memory, which is extendable to 32 GB. It has a 2 MP rear camera and is backed with a powerful battery of 3,000 mAh. Says Shripal Gandhi, founder and CEO of Swipe Telecom, "The tablet is loaded with lots of educational content and learning can be more fun with this device. It is armed with the parental lock system that allows parents to block or restrict Internet usage by their children."

Now, a phablet from Lenovo for the budget-conscious

Lenovo is charting a new course with its recently launched series of smartphones. At the top of the rung is the Lenovo A850, which runs on Android 4.2 (Jelly Bean) and features a 13.9 cm (5.5 inch) display. Powered by a 1.3 GHz dual-core processor, it sports a 5 MP rear camera and has 4 GB internal storage, which is expandable up to 32 GB via microSD card. Quips Sudhin Mathur, director, Smartphones, at Lenovo, "We are expanding our footprint in the smartphone space. Yes, there are many brands in the budget smartphone domain, but consumers will bank on a brand they trust and Lenovo fits the bill."
