

YOU SAID IT

'OSFY introduced me to open source'

This is my first e-mail to the OSFY team. I've been a reader of your magazine only since about four months and I must say that it's OSFY that has introduced me to the vast world of open source. I am very proud of being one of your lucky readers, and going through a varied range of articles is indeed fulfilling. I want to thank the OSFY team particularly for bringing out the 'Tips and Tricks' column, as these articles have helped me to use Linux in a better way. In a nutshell, let me say that by reading OSFY, I have become more and more interested in open source software. I just want to suggest that it would be great if you could publish an article on open source resource ticketing. Also, let me know if you plan to bundle the Kali distro in any of your upcoming editions. I hope OSFY's readership increases, which will help FOSS to spread further in India and elsewhere. Wish you all the success..

—Paul Eldho, paulaeldho@gmail.com

ED: We are indeed happy to receive such a nice mail from you and I must admit, it definitely made our day. We are also glad to know that our magazine has inspired you to dabble more with open source software. We have carried an article on open source ticketing in our magazine and have also published it on our portal www.linuxforu.com. Here is the link <http://www.linuxforu.com/2013/09/deploying-a-ticket-request-system-with-otrs/>. It would be too early for us to tell you whether we will bundle the Kali distro in the upcoming editions, but yes, we will definitely consider your suggestion. Thanks for sharing your experience with us.

Guest post for website

I recently came across your website <http://www.linuxforu.com> while browsing on the Net and I enjoyed reading your posts. I found it a perfect place to submit my content. I would appreciate it if you can let me know the procedure for submitting content for your website; my content would be unique, exclusively for your website and of high quality. The OSFY team can also suggest the topics that I could write on.

—Manish Vats, manish@imensoftware.com

ED: Thanks a lot for showing interest in writing to us! It feels great when enthusiastic authors like you wish to write for us. Before doing so, you can send us the detailed Table of Contents (ToC) at osfyedit@efyindia.com for the topic you want to write on. Our team will review it and once they give you the thumbs-up, you can go ahead with the article. While submitting the ToC, you should ensure that your article has an open source angle and caters to our target audience. I would also like to mention that currently, we do not pay an honorarium for online articles. Do let us know if this still interests you.

Android app for ezine access

I have been reading OSFY since a long time and I like it a lot. The content is very informative, so I have also subscribed to this magazine. I would be very happy to have the Android app to access your ezine service.

—Raju Balunavar, ajubalunavar@gmail.com

ED: Thanks a lot for reaching out to us and also for your words of appreciation. Such mails help us to do even better. Well, we are in the process of creating our own Android app for the ezine. Till then, we would suggest that you go for the Magzter services at www.magzter.com/ to read our magazine. Hope this helps. Keep writing in with your suggestions; we welcome them. **END**

Have not received the September issue

Ronak Jain: Dear OSFY, I haven't received my September copy yet! Where should I register my complaint?

Open Source For You: Thanks for reaching out to us! Please write to our support team at support@efyindia.com, mention your subscription ID and let them know that you have not received your copy. You can also call the team at 011-26810601/02/03 (extension: 201 or 202). We are sure this will help.
