

YOU SAID IT

ED: Thanks a lot for sharing your concerns. This is an important issue and many of us are not aware about the open source scenario in the Andaman and Nicobar Islands; so your letter is very timely. As you said, we will definitely consider highlighting the latent talents of open source enthusiasts from this region through our magazine. We suggest that you ask talented open source buffs from your island to contribute some good content to OSFY in the form of an article. This will be like a contribution to the community in some way, and they can even reach out to many fellow open source buffs as we have a huge reader base of FOSS lovers. If anyone you know wishes to write for us, they can send a detailed 'Table of Contents' (ToC) of the article to osfyedit@efyindia.com. Hope this helps.

Institutes on ethical hacking

I have been reading *Open Source For You* since the last three years and I feel it's the best magazine for developers, programmers and open source hobbyists. Now I am getting ready to join a CEH v8 (Ethical Hacking) course, and it would be great if you could suggest some of the best institutes in

Hyderabad. I felt that only OSFY could guide me, since your magazine has been covering some institutes that train on SQL (DBA), Red Hat Linux, etc. Thanks in advance and I am looking forward to hearing from you.

—Abdul Adil, abduladil2@yahoo.com

ED: With the growing number of sophisticated cyber crimes, good ethical hackers are now much in demand to safeguard valued information systems. So, it's indeed good on your part to contemplate a career in this field. Though there are many good institutes in this arena, we would suggest some like Spectramind Technologies, Hackers School, E2 Labs Information Security Pvt Ltd, Zoom Technologies (India) Pvt Ltd, etc.

Please feel free to reach out to us if you have any further queries. **END** 

Back issues

An Kit: Are back issues of OSFY magazine available for purchase online from any reliable source? I am a research student working on open source and I need some issues urgently. Please do help me. Thanks a lot.

Open Source For You: Thanks a lot for writing to us and sharing your concern. To get previous issues, you can send a mail to info@kitnspares.com and purchase the same. Hope this helps. Please feel free to contact us in case you have any further query.

Wish to join you on Facebook

Braj Kumar Reddiyar: I have only recently begun reading your magazine and also wish to join you on Facebook. Can you guide me on how to do so?

Open Source For You: We are indeed pleased that you wish to join our FB community. Well, you can just 'Like' our page and become a member.

Content on QT

Pulin Garg: QT is an Open Source GUI Library for C++ on Windows, Linux and MAC. Can you please include an article in OSFY about its future scope? I have heard that it is going to die out, soon after Nokia dumps it.

Open Source For You: Thanks a lot for reaching out to us. Your suggestion is interesting, and we will definitely consider it for an upcoming edition of the magazine.
