

The 'export_object()' function allows you to export a packet to its base64 encoded representation:

```
>>> export_object(data[2])
b'eNprYEouTk4sqNTLSaxMLSrwyHic3JSC3iKmTQDCpk1Ei
OT85PSU0u5kr NAzG4CpkiEhkyGHg0TUyIVj+8JiJH9fDa2M
PTORhcGRhsDq09vN2BwYFNx/ww6EV+YFg8vD6wysPTzrcwHC
4KUzbBKIX4dACps07D m9IAIoXMLGwHtrCwstBZX54weGph/
eB5BmZmdkLmSPY gMyxJLMPMNC1rZC1qBCNqhTS0sync4q5XF1Sk
ZNzE304CtkjBIFKdc0NzS3NjAxMLfXMDc0NDY0KOVoLOYMKufz8/Ly9Sgq5k/
QAox5N+Q=='
```

Build packets

The Scapy library allows you to construct packets from scratch. The 'IP()' function builds an IP packet with default values as demonstrated below:

```
>>> x=IP()
>>> x
<IP |>
>>> x.src
'127.0.0.1'
>>> x.dst
'127.0.0.1'
>>> x.ttl
64
>>> raw(x)
b'E\x00\x00\x14\x00\x01\x00\x00@\x00|\xe7\x7f\x00 \x00\x01\x7f\x00\x00\x01'
```

You can stack protocols to build on the packet information. In the following example, we are adding a TCP

and Ethernet packet to our IP packet layer:

```
>>> x/TCP()
<IP frag=0 proto=tcp |<TCP |>>

>>> e = Ether()/x/TCP()
>>> e.type
2048
>>> e.dst
'ff:ff:ff:ff:ff:ff'
>>> e.src
'00:00:00:00:00:00'
>>> e.proto
6
>>> e.frag
0
```

You can use the 'help(function)' to get documentation for any function provided by Scapy. You are encouraged to read the Scapy reference guide to learn more functions, their arguments, and usage.

OSFY Magazine Attractions During 2024-25

Month	Theme
March 2024	Gen AI, Deep learning and Machine Learning
April 2024	Open Source Programming (Languages and tools)
May 2024	Blockchain and Open Source
June 2024	Security, Network Management and Monitoring
July 2024	All About Data Management (Database management, Optimisation, Big Data, Data analysis, etc)
August 2024	Mobile/Web App Development, Optimisation and Security
September 2024	DevOps Special
October 2024	Cloud Special: Everything from management to implementation
November 2024	Containers and Managing Containers
December 2024	Open Source and Quantum Computing
January 2025	Open Source and IoT and Edge
February 2025	Open Source on Windows and Best in the world of Open Source (Tools and Services)
