

Certified Jenkins Engineer (CJE)

CJE certification covers a basic understanding of CI/CD concepts and best practices, and focuses on pipelines and production grade expertise. A certificate holder will have hands-on experience to effectively use Jenkins in end-to-end automation of application life cycle management activities.

Registration fees	US\$ 150 @ Authorized Test Center (KTN) or US\$ 99 for On-line Proctored (OLP) exam
--------------------------	---

Prerequisites	Certified Jenkins Engineer (CJE) exam • Jenkins - Fundamentals • Jenkins Pipeline - Fundamentals • Jenkins Administration – Fundamentals These classes are available as: Self-paced training on CloudBees University; Scheduled instructor-led Jenkins training classes; Through special arrangements with a Certified CloudBees Training Partner; and at the DevOps world conference
----------------------	---

Questions and format	60 multiple choice questions
-----------------------------	------------------------------

Duration	90 minutes
-----------------	------------

Passing score	66 per cent
----------------------	-------------

Medium of delivery	Authorized Test Center (KTN) or Online Proctored (OLP) exam
---------------------------	---

Open book	No
------------------	----

Exam content and objectives	• Jenkins Fundamentals • Jenkins Administration • Jenkins Build Technologies: Pipeline • Jenkins Build Technologies: Freestyle
------------------------------------	---

Good reference books	Hands-on Pipeline as Code with Jenkins: CI/CD Implementation for Mobile, Web, and Hybrid Applications Using Declarative Pipeline in Jenkins; https://www.amazon.com/Hands-Pipeline-Code-Jenkins-Implementation/dp/9389898609
-----------------------------	--

Benefits

The course helps to understand CI/CD concepts and DevOps practices as well as the major features of Jenkins such as pipelines and, optionally, CloudBees Core. It helps to gain basic knowledge that helps with CI/CD implementation at production level, with best practices for open source Jenkins.

My view

This was by far the toughest exam I gave with respect to questions and topic coverage, and gave me a lot of satisfaction when I saw the result. Pipeline coverage was very good.

Certified CloudBees Jenkins Engineer (CCJE)

CCJE certification covers basic understanding of CI/CD concepts and best practices, and is focused on pipelines and production grade expertise. Certificate holders will have hands-on experience to effectively utilise Jenkins and CloudBees in end-to-end automation of application life cycle management activities.
