

Questions and format	90 multiple-choice questions; 60 questions about Jenkins and CloudBees Jenkins distribution features; 30 additional questions about CloudBees Core features	Benefits	It helps to understand CI/CD concepts and DevOps practices as well as the major features of Jenkins such as pipelines and, optionally, CloudBees Core. You get basic knowledge to help with CI/CD implementation at the production level with best practices for CloudBees Jenkins.
Duration	120 minutes	Free training	Yes; https://standard.cbu.cloudbees.com/cloudbees-university-jenkins-pipeline-fundamentals
Passing score	66 per cent	Schedule your exam	https://www.webassessor.com/cloud-bees
Medium of delivery	Authorized Test Center (KTN) or Online Proctored (OLP) exam	My view	CCJE covers extra topics for CloudBees Jenkins along with normal Jenkins topics. This adds a lot of value considering the multiple tools available in the market for DevOps practices implementation.
Open book	No		
Exam content and objectives	• Jenkins Fundamentals • Jenkins Administration • Jenkins Build Technologies: Pipeline • Jenkins Build Technologies: Freestyle • CloudBees Core features		
Good reference books	Hands-on Pipeline as Code with Jenkins: CI/CD Implementation for Mobile, Web, and Hybrid Applications Using Declarative Pipeline in Jenkins; https://www.amazon.com/Hands-Pipeline-Code-Jenkins-Implementation/dp/9389898609		
		HashiCorp Infrastructure Automation Certification: Terraform Associate	The Terraform Associate certification ensures a person has hands-on experience using Terraform. It distinguishes between open source and enterprise versions, and what is feasible with which variant.
