

Action	apt	dnf (yum)	zypper	pacman	portage
Install package	<i>apt install PACKAGE</i>	<i>dnf install PACKAGE</i>	<i>zypper in PKG</i>	<i>pacman -S PACKAGE</i>	<i>emerge PACKAGE</i>
Remove package	<i>apt remove PACKAGE</i>	<i>dnf remove --nodeps PACKAGE</i>	<i>zypper rm -RU PKG</i>	<i>pacman -R PACKAGE</i>	<i>emerge -C PACKAGE or emerge --unmerge PACKAGE</i>
Remove package+orphans	<i>apt autoremove PACKAGE</i>	<i>dnf remove PACKAGE</i>	<i>zypper rm -u --force-resolution PKG</i>	<i>pacman -Rs PACKAGE</i>	<i>emerge -c PACKAGE or emerge --depclean PACKAGE</i>
Update software database	<i>apt update</i>	<i>dnf check-update</i>	<i>zypper ref</i>	<i>pacman -Sy</i>	<i>emerge --sync</i>
Show updatable packages	<i>apt list --upgradable</i>	<i>dnf check-update</i>	<i>zypper lu</i>	<i>pacman -Qu</i>	<i>emerge -avtuDN --with-bdeps=y @world or emerge --update --pretend @world</i>
Delete orphans+config	<i>apt autoremove</i>	<i>dnf erase PKG</i>	<i>zypper rm -u</i>	<i>pacman -Rsn \$(pacman -Qdtq)</i>	<i>emerge --depclean</i>
Show orphans		<i>package-cleanup --quiet --leaves --exclude-bin</i>	<i>zypper pa --orphaned --unneeded</i>	<i>pacman -Qdt</i>	<i>emerge -caD or emerge --depclean --pretend</i>
Update all	<i>apt upgrade</i>	<i>dnf update</i>	<i>zypper up</i>	<i>pacman -Syu</i>	<i>emerge --update --deep --with-bdeps=y @world</i>

Table 7: Command summary for popular Linux distributions

For a Red Hat based system, type:

```
#yum install build-essential
```

```
...or:
```

```
#yum install "Development Tools"
```

Then download the packages you want to install. In most cases these come as compressed files, with the extension *.tar.gz*. Go to the extracted directory and check its contents. Go through the *Readme* file and check if any special library files are required, fulfil the requirements and then compile the package. If everything goes fine, you can run that application.

Example commands are:

```
$tar -xvzf package.tar.gz
```

```
$cd package
```

```
$ls
```

[Svi Readme](#)

[\\$. /configure](#)

[Snake](#)

[#make install](#)
