

Octosum: The Open Source Subscription Management System as a Service

Ashnik is an enterprise open source solutions and consulting company based in Southeast Asia and India. It recently developed Octosum, an intelligent open source subscription management System as a Service. **Sandeep Khuperkar, CTO and director at Ashnik;** **Sachin Dabir, CEO and founder,** and **Deepti Dilip J., head and director of marketing,** participated in an exclusive interaction with **Sreejani Bhattacharyya** and **Niraj Sahay** of *OSFY* to discuss more about this platform.

Octosum is a subscription management system that brings together procurement, compliance, IT and business teams on a unified platform. The Octosum platform from Ashnik is based on years of experience

with open source technologies. The entire backend of the system is based on open source software too. Sandeep Khuperkar, CTO and director at Ashnik, says that enterprises and vendors face different challenges in managing their open source subscriptions.

“The product offers separate interfaces for organisations and vendors since both have unique needs of their own. We developed this system from the ground up. While developing this, we worked with customers to understand their challenges, and
