

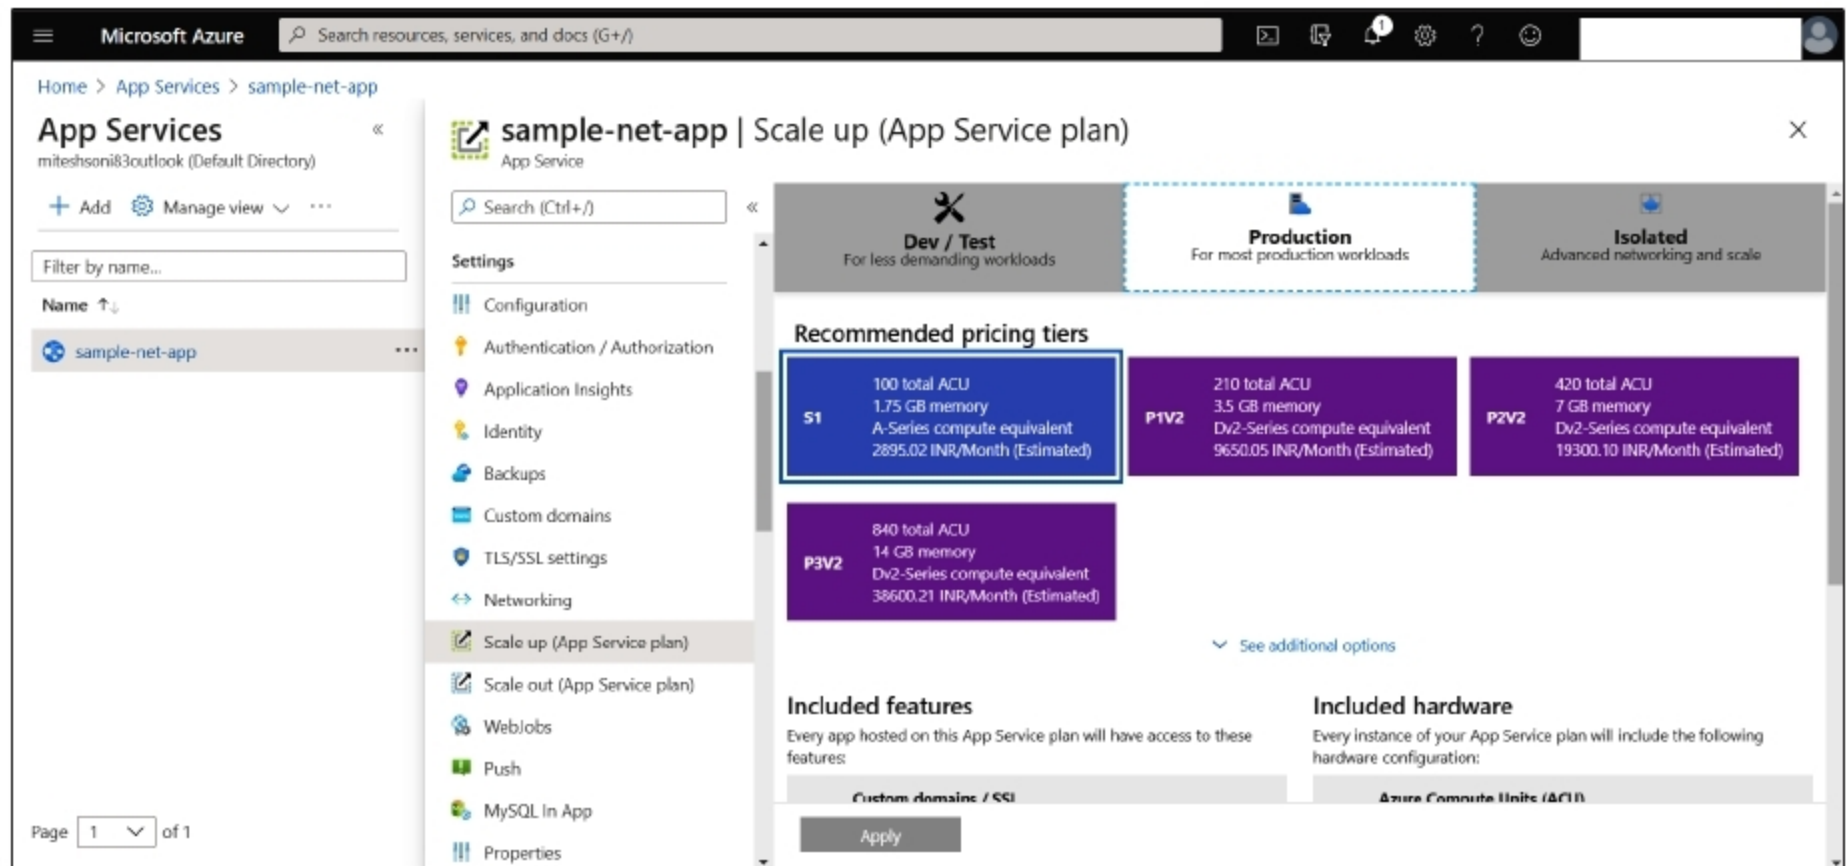

Figure 8: App Service: Pricing tiers

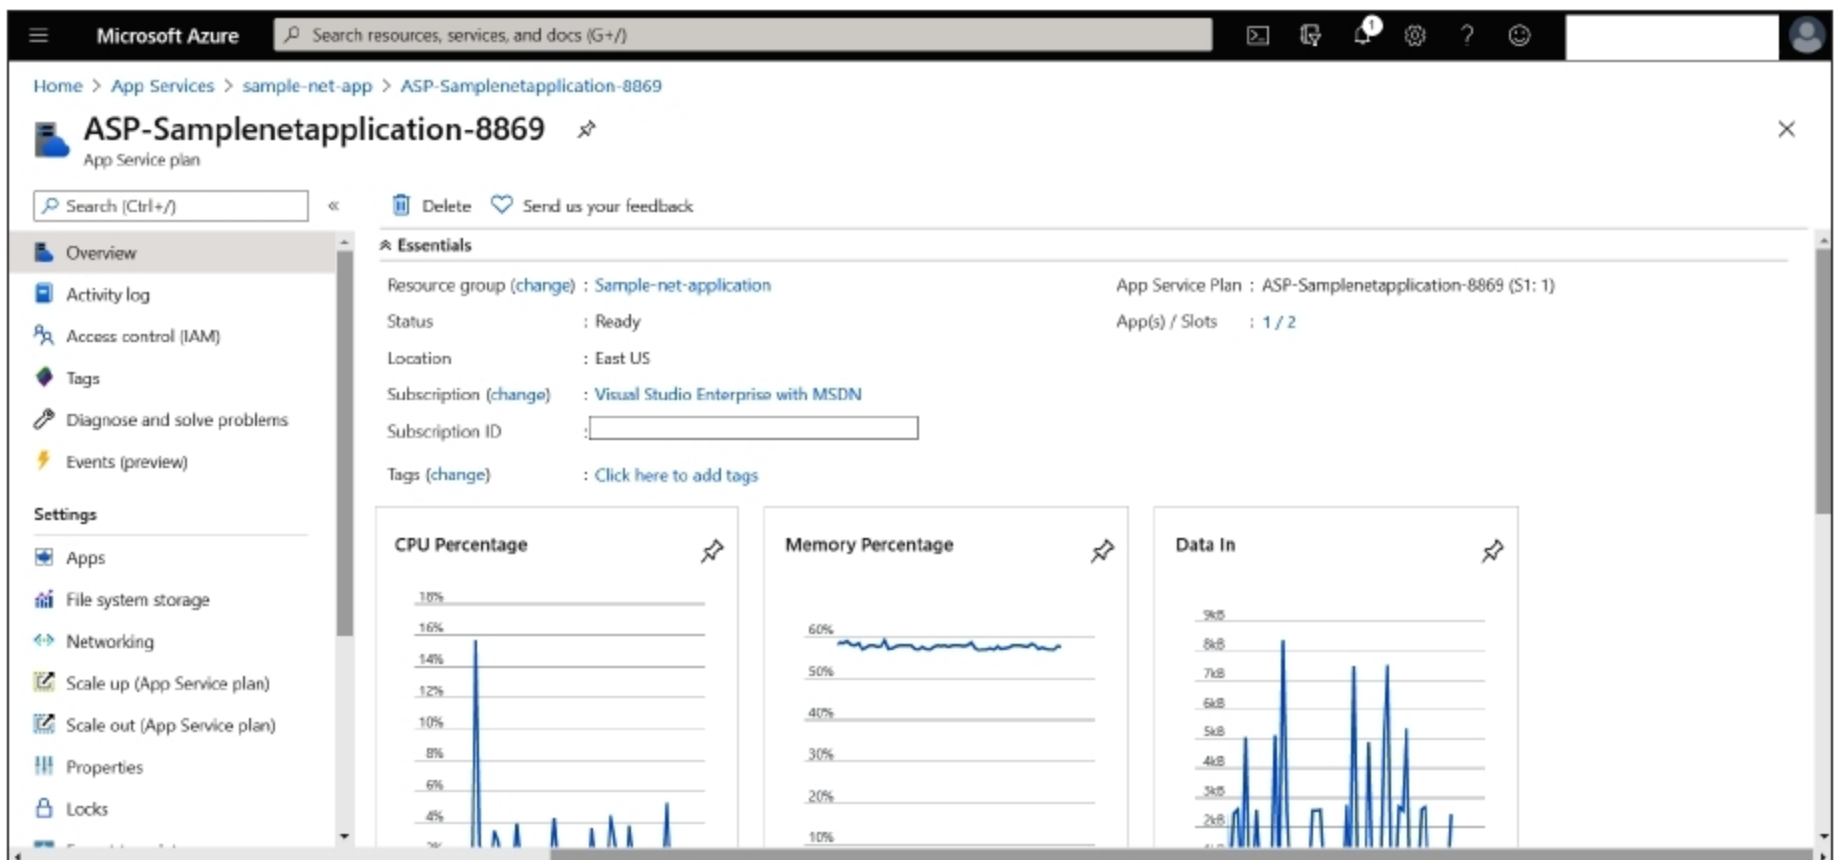

Figure 9: App Service: App Service Plan

Scaling

Azure App Service supports scale up/vertical scaling and scale out/horizontal scaling.

For scale up, go to the Azure portal and click on *App Service app* page. Select *Scale Up (App Service plan)*, choose your tier, and click *Apply*.

For scale out, again go to the Azure portal, and click on the *App Service*

Scale up / Vertical scaling

More CPU, memory, disk space

Dedicated virtual machines (VMs), custom domains and certificates

Deployment slots and auto scaling

Scale out / Horizontal scaling

Increase the number of virtual machine instances that run your app

Up to 30 instances based on the pricing tier

Premium services – App Service Environment can scale up to 100 instances

Table 4: Vertical and horizontal scaling
