Figure 7: Mysql database for Nextcloud

17. Setup Nextcloud and Go to your browser and type: *http://localhost/nextcloud*

18. Set up your admin account for Nextcloud, and below that enter all the database details as mentioned in point 16. For the database I created:

Database Name: Gamer
Username: D9Frost

Password: D9Fr0st123

Localhost

Click on *Finish Setup*; it will take a few minutes to set up the account.

20. You have successfully installed your Nextcloud server on your own local machine.

Nextcloud is the way forward in terms of the future of data storage on the cloud. It is reliable and trustworthy due to its growing open source community. **END** 🐧
