Coursera: DevOps Culture and Mindset

The DevOps Culture and Mindset course from Coursera provides information about the foundational principles of DevOps, with culture and mindset as focal points. It covers different aspects such as systems thinking, feedback loops, continuous improvement, loosely coupled architecture and teams, managing risk, and dealing with unplanned work. It also covers strategies to manage and monitor the work as well as keep it organised, and maintain a high level of quality by following DevOps practices.

Registration fees	Coursera subscription
Offered by	University of California, Davis
Level	Intermediate level
Questions and format	Multiple choice and case study
Course duration	15 hours
Medium of delivery	Online
Open book	Yes
Exam content and objectives	• Introducing DevOps concepts • Working with the DevOps mindset • Keeping work organised with DevOps • Using DevOps to speed up time to market
Benefits	• Knowledge of the culture and mindset involved in the implementation of DevOps practices • Basics of DevOps practices • Real-life scenarios and case studies
Register for the course	https://www.coursera.org/learn/devops-culture-and-mindset
My view	It is a wonderful course, with good exercises and a case study. Good for beginners as well as experienced professionals who want to understand why culture is the mainstay of this transformational exercise.
