

CONTENTS

AUGUST 2019 | ISSN-2456-4885

DEVELOPERS

- 25** Interfacing Python with the SQLite Transactional Database Engine
- 30** How to Run Multiple Instances of Firebird Server
- 33** It's Important to Validate Blockchain Applications in Real-time Scenarios
- 38** A Guide to Publishing Your First API in WSO2 API Manager
- 43** Working with Data Analysis and Relational Databases in Python
- 48** An Introduction to Cassandra
- 51** MonetDB: The Column-Store Pioneer
- 54** BigchainDB: A Popular and Powerful Database for Blockchain
- 59** What's Good About TensorFlow 2.0?
- 65** The Emacs Series Exploring ts.el
- 69** Open Source Databases: Enablers for IoT Applications
- 73** Cosmos DB: Microsoft's New Globally Distributed and Horizontally Scalable Database Service

ADMIN

- 82** Why the Blockchain is Your Best Bet for Cyber Security
- 85** Communication and Internet Technology: Interconnecting Networks
- 91** Continuous Deployment Orchestration Using Rundeck

FOR U & ME

- 101** An Amalgamation of Robotics and AI

OPENGURUS

- 102** Upgrade to Android Pie on Any Xiaomi Device with the Pixel Experience ROM

COLUMNS

- 23** CodeSport
- 80** Exploring Software: Code Review Using Phabricator

Ethereum: Look Out for this Secure Cryptocurrency

Machine Learning API Libraries that are Helping the IoT

Quantum Computing: A Revolution in Computing is On the Way

REGULAR FEATURES

07 FossBytes
