

## Qi wireless power bank from Astrum

Price:  
₹ 2,199

Astrum, a leading manufacturer of 'new technology' devices, has announced its first Qi wireless power bank, the PB310. The device comes with a 10,000mAh battery backup, and is compatible with Qi-enabled devices without the need to plug it in while charging, making it convenient and efficient. It also offers the wired charging option with a 2A USB output.

Smartphones can be charged quickly and safely with 5W of output power, by simply placing them on the PB310, which has a non-silicone pad surface to ensure phones do not slip or slide.

The power bank comes with a built-in smart chip,

smart matching, and intelligent identification equipment. With its multi-charging facility, the device enables users to charge multiple small electronic devices simultaneously.

With smart IC protection, the power bank avoids over-charging, over-discharging and short circuits. With a Li-polymer battery and Type C charging, the power bank withstands 500 power cycles and is capable of charging most smartphones available in the market.

The PB310 is available in shades of black via various retail stores and online, exclusively on Amazon.

## Wireless mouse and keyboard combo with energy-saving technology from Rapoo

Rapoo, a manufacturer of wireless technology devices, has launched its advanced wireless mouse and keyboard combination, which comes with energy-saving technology. Called the Rapoo 8000, the keyboard is encased in a slim and sleek, truly compact body, perfect for frequent travellers. It has customisable multimedia keys, which support a 1000 DPI high-definition tracking engine, resulting in responsive and smooth cursor control. The pocket-sized keyboard features a palm rest and adjustable tilt legs to make long working hours comfortable.

Quite similar to the keyboard, the mouse also features responsive and smooth cursor control with the 1000 DPI high-definition invisible tracking engine. Running on a 2.4GHz wireless connection, both keyboard and mouse can work well even from a distance of up to 10 metres, along with 360 degree coverage. The mouse is designed to last for over 10 million key-presses.

The highlight of the combo is Rapoo's latest energy-saving technology, which enables both the keyboard and mouse to function without power interruptions, for up to 12 months.

The devices have also been crafted with a noiseless design, ensuring an undisturbed working environment.

Adding glamour to the boring work desk, the keyboards are available in bright and trendy designs, making the work space more flamboyant.

The keyboard and mouse combo is available on Amazon.in.
