Acer Iconia One 10 (B3-A50)

Acer Iconia One 10 is a powerful, 'total value for money' tablet with a great display and powerful speakers. The screen is big and sharp, measuring 24.5cm across and with a resolution of 1,200 x 1,920 – which amounts to 222 ppi. It has an IPS panel with a 16:10 aspect ratio, and is almost perfect for widescreen viewing.

The Iconia tablet also has another trick up its sleeve, one that many manufacturers have dropped in recent years – two front-firing speakers. These are boosted by 'DTS-HD Premium Sound', which appears to be a mysterious automatic-equaliser that certainly has a positive impact on the sound produced.

The Acer tablet has another feature that is often woefully absent from many similarly priced devices — full 802.11ac 5GHz Wi-Fi. This inclusion allows for blisteringly fast connectivity when paired with compatible routers and a reliable Internet connection.

Technical specifications

- **Dimensions (H x W x D; weight):** 170mm x 253.9mm x 8.3mm; 530g
- **CPU:** MediaTek MT8176 dual core, ARM and quad-core ARM Cortex A53 processor with 1.3GHz
- **Display:** 24.5cm WUXGA IPS technology with a resolution of 1280 x 800 px with Active Matrix TFT Colour LCD, 149 ppi
- **Camera:** 5MP (rear) + 2MP (front) with continuous shooting, auto-focus, digital zoom, HDR, face detection, self-timer
- **Memory:** 2GB RAM + 32GB eMMC + support for microSD card of up to 128 GB
- **Connectivity:** Bluetooth 4.1 + A2DP, 802.11 a/b/g/n/ac, micro USB
- **Sensors:** Accelerometer
- **Speakers:** 2x stereo speakers
- **Battery:** 6100mAh Li-ion
- **Software:** Android 8.1 Oreo

Pros: Simple design, good connectivity options, good performance,

Cons: Average display, average battery life, average camera performance

Chuwi Hi9 Plus

9

Chuwi Hi9 Plus

Hi9 Plus is a decent Android 8.0 tablet that has an optional, attachable keyboard via a pogo port, and an active stylus support.

The build of the tablet is good with nice rounded edges, slim body and 2.5D glass. The screen is fully laminated, with a good maximum brightness of 360 lux. The screen's white balance and colours can be tweaked to the users' preference with the Miravision app included in the display settings. The Hi9 Plus has wireless AC dual band and Bluetooth 4.2. The battery is good — almost great — on this tablet. Overall, this a great tablet, with a good build, great screen, fast wireless, 4G support, phone calls, GPS, voice calls; but sometimes, the performance lags.

Technical specifications

- **Dimensions (H x W x D; weight):** 8.1mm x 266mm x 177mm; 700g
- **CPU:** Deca Core 2x2.3GHz Cortex-A72 + 4x1.85GHz Cortex-A53 + 4x1.4GHz Cortex-A53 MediaTek Helio X20 MT6797
- **Display:** 20.3cm IPS, LCD QHD+ with 2560 x 1600px, 280ppi
- **Camera:** 8MP (front + back)
- **Memory:** 4GB RAM + 128GB ROM + support for microSD card up to 128 GB
- **Connectivity:** Wi-Fi 802.11 a/b/g/n/ac 2.4 G + 5G, dual band, Bluetooth 4.1+ A2DP, GPS, A-GPS, GLONASS, Mini USB 2.0 with OTG, USB Type-C, 3.5mm headphone jack
- **Sensors:** Accelerometer, G-sensor, proxy-sensor
- **Speakers:** Loudspeaker
- **Battery:** 7000mAh
- **Software:** Android 8.0 Oreo

Pros: Vibrant display, fast processor, stock Android experience, good battery life with Fast Charge support

Cons: No Corning Gorilla glass, camera and speaker quality below average, plastic side buttons
