

“We are a founding member of more than **10 open source organisations**”

SUSE, a pioneer in open source software, offers reliable, software-defined infrastructure and application delivery solutions that give enterprises greater control and flexibility. With more than 25 years of engineering excellence and a great partner ecosystem, SUSE provides products and support that help its customers manage complexity, reduce cost and confidently deliver mission-critical services.

In an interaction with **Aamir H. Kaki, Peter Lees, chief technologist, SUSE Asia Pacific**, sheds light on the open source market in India, the role of the government in promoting open source, SUSE's contribution to open source, and a lot more.
