

Headset with built-in Alexa from iBall

Well known consumer electronics company, iBall, has recently launched Decibel, its latest headset with Alexa, Amazon's virtual assistant, built-in. This headset offers high quality sound along with FM radio, aux., a microSD slot, etc.

With iBall Decibel, Alexa is now portable—a user can simply download the 'Hubble Connect for Verve Life' app on both Android and iOS devices to unlock more features.

The Decibel has a multi-function button which allows users continued access to their phone's default

services for calls or music, as it functions like a regular Bluetooth headset.

The iBall Decibel is comfortable for all-day wear, highlights powerful low notes and eliminates the need for artificial bass boosting. It features a dedicated 40mm driver unit which has a wider frequency range with balanced, powerful lows and extended highs.

The iBall Decibel is available in three colour combinations of blue, white and silver; blue, black and silver; and black, bronze and gold, via retail stores across India.

Address: iBall, 190, Patparganj Industrial Area, Patparganj, Delhi 110092
