

Table 1

Component name	Purpose	Location
1 Label	To display a label	Palette-->User Interface-->Label
2 Button	To trigger events	Palette-->User Interface-->Button
3 Horizontal arrangement	To arrange the child components	Palette-->Layout-->Horizontal Arrangement
4 Notifier	To display on screen information	Palette-->User Interface-->>>Notifier
5 TinyDB	To store data	Palette--> Storage--> TinyDB

Table 2

Component name	Purpose	Location
1 Label	To display a label	Palette-->User Interface-->Label
2 Button	To trigger events	Palette-->User Interface-->Button
3 Horizontal arrangement	To arrange the child components	Palette-->Layout-->Horizontal Arrangement
4 Notifier	To display on screen information	Palette-->User Interface-->>>Notifier
5 Text box	To take user input	Palette-->User Interface-->TextBox
6 TinyDB	To store data	Palette--> Storage--> TinyDB

- Follow the on-screen instructions, which generally involve accepting the terms and conditions.
- Once everything is done, you will see the screen shown in Figure 1.
- Click on the 'Create New Project' button, as shown in Figure 1.

Figure 1: Firebase dashboard

Figure 2: Creating a new project

- Give the name of the project and country/region, as shown in Figure 2.
- Once your project is created, you will see the dashboard of your application. It will be similar to Figure 3.
- Now select Database from the left-hand palette and then 'Rules' from the next page. It will display something like what's shown in Figure 4.
- This time, we want to give all users access to the database; hence, we need to change the rules. You can manually do so by typing values as shown in Figure 5. Once done, click on the **Publish** button.

So you have successfully created an empty space for your project in Firebase, and have given read and write permissions to all the users who have the URL.

If you are new to this Android journey, I would request you to go through a few of the beginner articles to familiarise yourself with App Inventor. Let's proceed towards the theme of our application, which we will be
