Multi-featured, sophisticated Webcam from Logitech

Personal computer and mobile accessories manufacturer, Logitech, has unveiled its latest Webcam – the Brio 4K Pro with support for Logitech RightLight 3 along with 4K video quality and 5x zoom.

The device is suitable for businesses, home office users, streamers, vloggers, etc, as it delivers a high quality desktop video experience, and offers users the choice between 65, 78 and 90 degree fields of view. The company claims it is the first Webcam with HDR (high dynamic range) and with support for Windows Hello and other infrared-based facial recognition applications.

The device comes with Logitech's advanced lens technology with autofocus that offers quality videos with good resolution, speed, fluidity, colour balance and detail.

The Webcam is compatible with nearly all laptops and PCs as well as with all Logitech cloud video partners such as BlueJeans, BroadSoft, Vidyo and Zoom.

The Logitech Brio is available via online and retail stores.
