Waterproof Bluetooth speakers from Ultimate Ears

Custom in-ear headphones manufacturer and Logitech brand Ultimate Ears has launched its latest Bluetooth portable speaker, the UE Wonderboom. The device is said to offer 360-degree sound for up to 10 hours on a single charge. It enables users to enjoy non-stop music and can be fully charged in less than three hours.

Company sources claim that the speaker can withstand a drop from a height of up to 1.52m (5 feet). It features a hanging loop on top, through which it can be attached to a bag, cycle, etc. The music can be controlled via the speaker itself, which lets the user control the volume and skip a song. The speaker comes with IP67 certification, making it dust- and water-resistant. It can be immersed in up to 1 metre of liquid for 30 minutes, making it perfect for poolsides, beaches or rainy days.

Supporting a mobile range of up to 33 metres, the device can be paired with approximately eight other Bluetooth enabled Wonderboom speakers, and can be connected to two source devices.

The UE Wonderboom speakers are available in grey, black, red, blue and pink via online and retail stores.

Wireless headphones from Plantronics

Audio communications equipment manufacturer, Plantronics, has unveiled its latest over-the-ear wireless headphones, the Backbeat Pro 2, which offer good audio quality and some smart features. The music pauses automatically once the headphones are removed and resumes when they are put on again.

The headphones come with on-demand active-noise cancellation, 24-hour battery life, along with Plantronics' signature audio technologies like rich bass, crisp highs and natural mid-tones. They are equipped with Class 1 Bluetooth, which gives an impressive 100 metre range when paired with any Class 1 Bluetooth device.

The headphones' smart power management technologies offer up to 24 hours of non-stop playback on a single charge, up to 21 days of standby power and up to six

months of deep sleep hibernation if inadvertently left on.

The Backbeat Pro 2 comes with additional features like multi-device connectivity to connect up to two devices simultaneously and to switch between them easily. Built-in dual microphones enable the user to switch into a phone call while using the headphones.

The Plantronics headphones are travel-friendly as they are designed with fold-flat ear-cups and a protective sleeve. They are available via online retail stores.

Server SSDs from Kingston

Kingston, the multinational computer technology corporation that develops and manufactures Flash memory products and other memory devices, has unveiled its latest cloud based storage device – the DC400 SSD.

Ideal for read-intensive applications such as boot, Web servers and lower data rate, operational databases and analytics, the DC 400 SSD offers good quality of service for data centre customers.

The device features enterprise-class reliability with end-to-end data path protection and firmware implemented power-loss-protection (pFAIL). The SSD is a good front-loading server storage option, being a combination of high IOPS, low latency and advanced data protection. It is available in capacities

Price:
₹ 19,999 for 480GB
₹ 35,000 for 960GB and
₹ 36,000 for 1.6TB

of 400GB, 480GB, 800GB, 960GB, 1.6TB and 1.8TB. The 400GB, 800GB and 1.6TB capacities are performance optimised with greater IOPS for faster application performance.

The SSDs are available online and at retail stores.
