

## Dual camera smartphone from Micromax

Indian consumer electronics company, Micromax, has made a strong comeback with the launch of its latest smartphone, the Dual 5, which sports a dual camera on the rear. The device sports twin 13 megapixel sensors on the rear, both with an f/1.8 aperture. One sensor captures in monochrome and the other in colour. Apart from this, there is the 13 megapixel front camera for selfies.

Apart from its imaging capabilities, the flagship device features a 13.9cm (5.5 inch) full HD super AMOLED display with 2.5D Corning Gorilla Glass 3 for protection. A fingerprint sensor on the rear panel recognises fingerprints within 0.2 seconds, according to company sources. It sports an all-metal unibody design with chamfered

edges, which gives the phone a premium look.

The Dual 5 is powered with an octa-core Qualcomm Snapdragon 652 processor, coupled with 4GB of RAM

and 128GB of onboard storage, which is further expandable via a microSD card. It runs on Micromax's Qiku 360 interface with Android 6.0 Marshmallow.

Powered by a 3,200mAh battery, the smartphone comes with Quick Charge 3.0 which can charge the phone to full capacity in just 45 minutes. The connectivity options of the device include 4G VOLTE, Wi-Fi 802.11ac, Bluetooth v4.1, a 3.5mm audio jack and USB Type-C along with sensors like an accelerometer, an ambient light sensor, a gyroscope, infrared sensor, etc.

The Micromax Dual 5 is available via online and retail stores.

## Karbons's pocket-friendly 4G smartphones

Mobile device manufacturer, Karbons Mobiles, has introduced two new 4G enabled smartphones — the Karbons Aura Sleek 4G and Aura Note 4G, both offering the latest features at an affordable price, making them quite popular among the youth.

The Aura Sleek 4G comes with a 12.7cm (5 inch) FWVGA IPS full lamination display, perfect for video streaming and games. It is powered by a 1.1GHz quad-core processor with an internal memory of 1GB RAM and 8GB ROM. Backed with a 2000mAh battery, the device runs on Android 6.0 Marshmallow, comes with a microSD card port and supports up to 32GB of external memory. As for the camera, the Aura

Sleek comes with a 5 megapixel rear and 2 megapixel front camera.

The Karbons Aura Note 4G is the first fingerprint sensor device from the company. It comes with a 13.9cm (5.5 inch) HD screen, 720x1280 display and IPS full lamination. With a 1.25GHz quad core processor, the device is backed with a huge 2800mAh battery, a flashlight, 2GB RAM and 16GB ROM. It runs on Android 6.0 Marshmallow and has an SD card port with memory expandable up to 32GB. It offers front and rear 5 megapixel cameras.

The Aura Sleek is available in champagne white, black and grey, while the Aura Note 4G is available in premium finishes of matte black and metallic champagne via online and retail stores.
