Modular smartphone from Lenovo

Chinese multinational technology company, Lenovo, has launched its modular smartphone, the Moto Z Play. The device comes with Moto Mods, a modular system that enables users to extend the functionality of the smartphone.

The Moto Z features a 13.9cm (5.5 inch) full-HD super AMOLED screen. It is powered by the Qualcomm Snapdragon 625 SoC, and runs Android 6.0.1 with 3GB RAM and 32GB internal storage, expandable up to 2000GB via a microSD card.

The device has a 16 megapixel rear camera and 5 megapixel front camera with a 3510mAh battery. The big boost to the Moto Mods system is the Hasselblad True Zoom Mod, through which the user can enhance the camera capabilities of the smartphone with an easy-to-attach accessory. It features a 13-megapixel sensor, 10X optical zoom, a Xenon flash, auto back-up of pictures and the ability to shoot in RAW format.

Connectivity options of the device include Wi-Fi, GPS, Bluetooth, NFC, 3G, 4G (with support for Band 40 used by some LTE networks in India) along with a proximity sensor, ambient light sensor and accelerometer.

The Lenovo Moto Z Play is available online and at retail stores.

Smartphone with 'panic button' from Videocon

Consumer electronics manufacturer, Videocon, has launched a smartphone called Videocon Cube 3, which supports the government's call to provide a mandatory panic button. The device introduces the 'SOS-Be-Safe' emergency response app.

The app uses the power button as the panic button to send an alert to the numbers added in the emergency list. It also comes with highly responsive and indigenously developed features including *Alert*, *Walk With Me* and *Reach On Time*.

Apart from the safety features, the handset comes with an attractive design and a 12.7cm (5 inch) HD IPS display with a resolution of 720x1280 pixels. It is powered by a 1.3GHz quad-core MediaTek MT6735 processor with 3GB RAM. It runs on Android 6.0 and packs in 32GB of internal storage that can be expanded via microSD card. Powered by a 3000mAh battery, the Videocon Cube 3 has a 13 megapixel primary camera

and a 5 megapixel front camera.

The dual-SIM smartphone features connectivity options like Wi-Fi, GPS, Bluetooth, FM, 4G, etc. Sensors on the phone include a proximity sensor and an ambient light sensor.

The Videocon Cube 3 is available via Amazon and other retail stores.
