

Profit from IoT

India's #1 IoT Show. At Electronics For You, we strongly believe that India has the potential to become a super power in the IoT space in the upcoming years. All that's needed are platforms for different stakeholders of the eco-system to come together.

We've been building one such platform: **IoTshow.in**—an event for the creators, the enablers and customers of IoT. In Feb 2018, the 3rd edition of IoTshow.in will bring together a B2B expo, technical and business conferences, Start-up Zone, demo sessions of innovative products, and more.

Who Should Attend?

- **Creators of IoT Solutions:** OEMs, Design Houses, CEOs, CTOs, Design Engineers, Software Developers, IT Managers, etc
- **Enablers of IoT Solutions:** System Integrators, solution providers, distributors, resellers, etc
- **Business Customers:** Enterprise, SMEs, Government, Defence, Academia, etc

Why Should You Attend?

- Get updates on latest technology trends defining the IoT landscape
- Get a first-hand glimpse of products & solutions that enable development of better IoT solutions
- Connect with leading IoT brands seeking channel partners and system integrators
- Connect with leading suppliers/service-providers of electronics, IT and telecom services who can help you produce IoT solutions better and faster
- Network with the who's who of the IoT world and build connects with industry peers
- Find out IoT solutions that can help you reduce costs or increase revenues
- Get updates on latest business trends shaping demand and supply for IoT solutions

India's Electronics Manufacturing Show

Is there a show in India that showcases the latest in electronics manufacturing such as Rapid Prototyping, Rapid Production and Table Top Manufacturing?

Yes, there is now - EFY Expo 2018. EFY Expo 2018, with its focus on the said areas and being co-located at India Electronics Week, has emerged as India's leading show on latest manufacturing technologies and electronics components

Who Should Attend?

- **Manufacturers:** CEOs, MDs etc—who are manufacturing electronics & technology products
- **Purchase Decision Makers:** CEOs, Purchase Managers, Production Managers, etc involved in electronics manufacturing
- **Technology decision makers:** Design engineers, R&D heads etc. – involved in electronics manufacturing
- **Channel Partners:** Importers, distributors, resellers of electronics components, tools & equipment
- **Investors:** Start-ups, Entrepreneurs, Investment Consultants interested in electronics manufacturing

Why Should You Attend?

- Get updates on latest technology trends in rapid prototyping & production and table top manufacturing
- Get connected with new suppliers from across India to improve your supply-chain
- Connect with OEMs, principles, brands seeking channel partners and distributors
- Connect with foreign suppliers and principles to represent them in India
- Explore new business ideas and investment opportunities in this sector

Showcasing Technology that Powers the Light

Our belief is that the LED Bulb itself is a culmination of advancement in technology. And, such a product category and its associated industry cannot grow without focusing on latest technologies. But, while there are some good B2B shows for LED Lighting in India, none has a focus on "the technology that powers the light". Thus, the need for LEDasia.in.

Who Should Attend?

- **Tech Decision Makers:** CEOs, CTOs, R&D, Design Engineers, etc—who are developing latest LED-based products
- **Purchase Decision Makers:** CEOs, Purchase Managers, Production Managers, etc from manufacturers that use LEDs
- **Channel Partners:** Importers, distributors, resellers of LEDs & LED Lighting products
- **Investors:** Start-ups, Entrepreneurs, Investment Consultants interested in this sector
- **Enablers:** System Integrators, Lighting consultants, etc interested in Smarter Lighting Solutions (thanks to co-located IoTshow.in)

Why Should You Attend?

- Get updates on latest technology trends defining LED & LED Lighting sector
- Get a first-hand glimpse of latest components, equipment and tools to help produce better lighting products
- Get connected with new suppliers from across India to improve your supply-chain
- Connect with OEMs, principles, lighting brands seeking channel partners and system integrators
- Connect with foreign suppliers and principles to represent them in India
- Explore new business ideas and investment opportunities ideas in LED & Lighting sector
- Get a first-hand view of "IoT + Lighting" solutions that make lighting smarter
