Pocket-friendly Bluetooth speaker from Kodak

Super Plastronics Pvt Ltd, a brand licensee of Kodak, has launched its first Bluetooth portable speaker in India, the Kodak 68M. The device offers a complete sound experience in an affordable price, company sources claim.

Apart from Bluetooth connectivity, the speaker supports an auxiliary wire and a micro USB jack.

It is equipped with a low sound output with a reach of up to 10 metres. Powered by a 3.7W battery, the speaker is capable of lasting for over five hours. For enhancing the sound experience, the device can also be connected to an additional speaker.

The Kodak speaker can also be connected to any TV, with or without Bluetooth, making it a complete package for entertainment lovers.

The Kodak 68M speaker is available online and at retail stores.

Price:
₹ 3,290

Earbuds with heart-rate monitor from Jabra

Audio and connectivity devices manufacturer, Jabra, has introduced superior quality earbuds for music and voice calls, called Jabra Elite Sport. The device sports advanced wireless connectivity, which filters out background noise ensuring distraction-free usage.

The buds come with the ease of portable charging and deliver 4.5 hours of playtime. They have customisable fitting options, enabling users to stay connected comfortably during outdoor and sports activities.

A special button on the earbuds, 'Hear Through', filters out surrounding noise. The device has four microphones and offers personalised fitness analysis using an in-ear heart rate monitor.

Price:
₹ 18,999

With IP67 certification, the earbuds have a three-year warranty for damage by sweat and water, enabling hassle-free usage.

The wireless Jabra Elite Sport is available in lime green, grey and black, online and at retail stores.

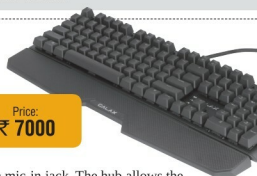

Address: Jabra India Pvt Ltd, Redington India Limited, New No. 27, NRS Building, Velachery Road, Saidapet, Chennai-600015.

Mechanical keyboard for gamers from Galax

Galax, the manufacturer of gaming products, has unveiled its latest HOF Black edition mechanical keyboard, specially designed for gamers. The keyboard uses a genuine Cherry MX mechanical key switch with 50 million keystrokes for long lasting and quick response, giving users a stable and long-term option.

The stylish-looking keyboard is built with an anodised (black)/baking paint (white colour) aluminium plate. It offers up to 112 lighting effects with software and 88 lighting effects without software. Its Macro keys make each key of the device programmable. The keyboard comes with media control buttons along with a die-cast volume and lighting roller.

With the n-key rollover, the company claims the keyboard is 100 per cent anti-ghosting. The HOF keyboard can enter all the signals accurately, even when played faster or when pressing multiple keys. It has a USB 2.0 hub with audio-out

Price:
₹ 7000

and a mic-in jack. The hub allows the users to connect USB devices of all types quickly. It also has a magnetic, detachable, soft-touch wrist rest to make prolonged use comfortable.

The Xtreme Tuner Plus system enables users to customise the keyboard by controlling Macros. It also has per-key programming, back light setting and lighting patterns.

The HOF black edition carries a three-year warranty period and is available at Amazon.
