

errors:

minikube: no errors

router: no errors

loadbalancer emulator: no errors

Let's verify services first:

```
osfy@ubuntu-22-04-1-lts:~/Desktop$ kubectl get services
```

NAME	TYPE	CLUSTER-IP	EXTERNAL-IP
kubernetes	ClusterIP	10.96.0.1	<none>
TCP	13h		443/
