LFY DVD: openSUSE 11.2 & Mandriva 2010

"Killer looks, slick integration and superb tools makes it THE choice for all but novices or very finicky Linux users out there"

"The large amount of software included on the DVD means you don't need an Internet connection for anything except updates"

LFY CD: Ubuntu 9.10

"Perfect for people who want DEBs at all costs and want the system customised exactly their way"

Turn to Page 20 to learn how the three distros fared when pitted against each other.
