EMBEDDED SYSTEMS CONFERENCE INDIA

Technical Conference & Exhibition
22-24, July 2009
NIMHANS Convention Centre
Bangalore, India

LINUX FOR YOU Invites You to Attend

The Embedded Systems Conference India

The 2009 Embedded Systems Conference India will offer practical, how-to classes designed to meet the needs of embedded systems developers and engineers. The classes taught by the respected industry experts cover methodologies, processes, and techniques that are fundamental for today's engineers developing embedded systems.

Register for ESC India at: www.esc-india.com/register_now.html

In the classroom:

Learn design solutions on **conference topics** such as:

- Programmable Logic
- Multi-core, Multi-threading, and Virtualization
- Linux and Open-Source Software
- Developing for ARM
- Real-Time Development
- Real-Time Kernels
- Multimedia and Signal Processing
- Datacom/Telecom
- Security
- Project Management/Software Engineering Practices and more.

Full Technical Program:
