

CODECHEF

Attention Programmers! Improve your tech skills and win prizes.

Welcome to the first installment of CodeChef Challenges—your monthly dose of puzzles from India's biggest online programming contest, now in print! Compete with like-minded folks who are as passionate about programming as you are. Each month, we will bring to you a CodeChef challenge that will test your tech skills, and the top entries will be awarded by *LINUX For You* and Directi.

What is expected out of you?

Every month we will share with you a CodeChef puzzle that you should solve and revert to us at codechef@efyindia.com. Three lucky winners can win Rs 1000 each, every month.

Ready? Here goes the first of many!

Puzzle of the month

How many squares of different sizes, and with sides parallel to the sides of the chess board, can we get from an 8×8 chess board?

Send in your answers to codechef@efyindia.com, latest by November 18, 2009. Watch this space for the winner, solution to the puzzle, and another exciting challenge. Till then, happy programming!

Want tougher challenges? Bigger prizes? Check out CodeChef.com

CodeChef.com is India's first, non-commercial, online programming competition, featuring monthly contests in more than 35 different programming languages. CodeChef has been created by Directi, as a way to continuously challenge and engage the developer community. The goal is to provide a platform for practice, competition and improvement as well as enable developers to benchmark their skills against their peers. **END**
