Ambrane's power bank with torchlight

Electronic gizmo and mobile accessory maker, Ambrane, has launched a high capacity power bank at an affordable price. The P1310 power bank features two USB 2.0 ports, one micro USB port and offers a 5v/2.1A maximum output.

Its super-sized capacity is supposedly to support up to 3.5 full charges, which helps a user to charge a 2,500mAh battery smartphone approximately four times with a fully charged power bank. The company claims that the power bank can withstand up to 300-500 charge/discharge cycles with an average charging time of 12-13 hours.

The device uses Samsung's lithium-ion battery, and is backed by a RISC microprocessor for faster charging and enhanced battery life. It is capable of automatically adjusting the output power level, based on the connected device. With a built-in torchlight, the power bank comes with nine-layered circuit protection and optimised charging efficiency. It has four LED indicators that show the remaining battery level.

The power bank is compatible with nearly all smartphones and tablets, as well as a variety of digital cameras and handheld gaming devices. The Ambrane P1310 is available online and via retail stores.

Xiaomi releases its largest smartphone

Chinese smartphone manufacturer, Xiaomi, has recently launched the Mi Max in India, which is known to be the largest smartphone available at an affordable price. The device has a 16.35cm (6.44 inch) full HD (1080x1920) 342ppi display with an all-metal body and a fingerprint sensor on the rear panel.

The variant of the device available in India features 3GB RAM with 32GB inbuilt storage. It is powered by a Snapdragon 650SoC with a hybrid dual SIM configuration, which enables users to place a microSIM card of up to 128GB in the secondary SIM card slot.

On the camera front, the device sports a 16 megapixel rear camera offering phase detection autofocus (PDAF) and LED, along with a 5 megapixel front camera with an 85 degree wide angle view. Both cameras have an f/2.0 aperture.

The connectivity features of the phablet include 4G LTE with VoLTE, Bluetooth 4.1, and GPS/A-GPS with Wi-Fi 802.11ac with Mimo.

Price:
₹ 14,999

Backed with a massive 4850mAh battery, the device weighs 203 grams. It also sports an infrared emitter to act as a universal remote control, apart from an ambient light sensor, accelerometer, gyroscope, etc.

The Mi Max is available in dark grey, gold and silver colours, via online stores.
