

Tablet with fingerprint sensor from iBall

Consumer electronics company, iBall, has unveiled its iBall slide Bio-Mate tablet with a fingerprint sensor for safeguarding privacy.

The device comes with a bigger 20.3cm (8 inch) screen and a sleek cobalt brown matte body. It features a massive IPS HD display with 1280x800 pixels. It offers authorised access to up to five fingers, allowing users to give access to their most trustworthy friends. The Bio-Mate incorporates an advanced 1.3GHz quad-core processor, which enables you to switch between apps and access the Web faster, along with 1GB RAM that enhances its processing speed.

It features an enhanced 8 megapixel AF rear camera and a 2 megapixel front camera for selfies and video chatting.

Price:
₹ 7,999

The tablet has the Android 5.1 Lollipop OS with a powerful 4300mAh battery. On the connectivity front, the device offers a Wi-Fi hotspot, dual-SIM with 3G, Bluetooth 4.0, the USB OTG function, GPS and A-GPS, along with FM radio with FM recording.

The iBall Slide Bio-Mate is available at retail stores.

NAS device from Western Digital launched in India

The digital storage solutions company, Western Digital, has launched the My Cloud EX2 Ultra two-bay network attached storage (NAS) system. The device is designed to automatically sync contacts across computers, and easily share files and folders for creative professionals who require multiple backup options.

Backed by a 1.3GHz dual core processor, the device has 1GB RAM, offering security features to help users protect and manage movies, photos, music and files. The management options of the device include RAID0, RAID1, JBOD and spanning modes. The data protection options include NAS to NAS, USB to cloud and LAN/WAN backup.

In order to easily configure it into other data protection modes, the device comes preconfigured with RAID1. To further expand the capacity of the My Cloud EX2 Ultra, it comes with support for USB 3.0, which is compatible with hard drives. It is also equipped with WD RED hard drives powered by NASware 3.0 technology, along with a dashboard for users to create accounts and monitor the storage.

Price:
₹ 17,499 for driver-less variant

The WD My Cloud EX2 drives are available in three variants – 4TB, 6TB and 8TB, and are available via selected retail stores.

Card reader-cum-power bank from Kingston

Multinational computer technology corporation, Kingston, has unveiled two new variants of its MobileLite wireless card reader-cum-power bank — the MobileLite Wireless G3 and MobileLite Wireless Pro. Both the variants come with a SD card slot, through which the users are able to access content on their tablet/smartphone via the MobileLite app by simply connecting their storage devices to it.

The MobileLite Wireless G3 comes with a USB port and is equipped with a 5400mAh battery, while the Wireless Pro variant comes with a 6,700mAh battery which allows users to charge their smartphone on the go.

With the MobileLite app, users can

Price:
₹ 4,999 for MobileLite G3 and ₹ 8,999 for MobileLite Pro

easily transfer, back up or share photos and videos without using a PC.

The devices are dual band Wi-Fi capable (802.11ac) for fast data transfer. Apart from charging mobile devices and wireless data streaming, users can also store data on the Wireless Pro version as it offers 64GB of internal storage.

Both the devices are available via retail stores.
