Fastest tri-band Wi-Fi router from Netgear

American global networking company, Netgear, has recently released its latest tri-band router, which it claims is the fastest in the market. The Nighthawk X8 AC5300 smart Wi-Fi router offers wireless speeds of up to 5.3Gbps. The device is designed with four external active antennas along with four internal antennas, which amplify the Wi-Fi range.

Designed for very large homes or offices, the Nighthawk comes with implicit and explicit beamforming for 2.4GHz and 5GHz bands along with two USB ports, USB 3.0 and 2.0.

It runs on a powerful dual-core 1.4GHz processor with memory of

Creative's bell-shaped Bluetooth speakers

Digital entertainment products manufacturer, Creative, has launched its beautiful, tiny bell-shaped Bluetooth speakers called Woof 3. The speakers are tiny enough to neatly fit into your palm. They are equipped with a powerful 45mm driver to deliver well balanced audio, as well as an oversized bass radiator.

The speakers are designed with built-in music control buttons to play, pause, skip tracks or adjust the volume. They feature a microSD slot for a great playback option, which enables users to conserve the smartphone battery life by simply inserting a microSD card and playing songs on it. They also enable the user to transfer music, videos and personal data between the microSD card and the computer.

The speakers support file formats such as MP3, WMA, WAV, FLAC,
