

perform the following tasks:

- App creation
- App preview
- App building
- App running
- App uploading
- App logging

The Ionic Lab is available for download at <https://lab.ionic.io/>.

Ionic Creator

Ionic Creator is more advanced than Ionic Lab. It allows the creation of Ionic apps with a drag and drop graphical user interface. It can be accessed from the browser at <https://creator.ionic.io/app/login>. Ionic Creator is available for free with limited features. The advanced features are accessible according to their pricing policy.

Ionic Market

Ionic Market facilitates the discovery and sharing of all resources related to Ionic. These resources include community built themes, apps, plugins, etc. The URL for Ionic Market

is <http://market.ionic.io/>. This marketplace allows you to jumpstart your Ionic app development process.

To summarise, the Ionic UI framework makes the process of building hybrid mobile applications faster and enables seamless integration with the native platform's look and feel.
