Second gen smartwatch from Motorola

Motorola has launched the Moto 360, the second generation of its smartwatch in five different variants, making it available in leather and stainless steel bands.

The smartwatch comes in two size variants of 42mm and 46mm. The 42mm

variant for women features a 3.4cm (1.37 inch) 360 x 325 pixel display, while the 46mm variant features a slightly larger 3.9cm (1.55 inch) 360 x 330 pixel display.

The watch is equipped with Corning Gorilla Glass 3 for screen protection.

Similar to the earlier version, the Moto 360 supports both iOS and Android, and is powered by the Android Wear OS and by a 1.2GHz quad-core Snapdragon 400 CPU with 512MB RAM and 4GB internal storage.

The IP 67 water-resistant smartwatch comes with quick release bands and features a built-in pulse sensor that tracks the heart rate. It is powered by 400mAh (46mm) and 300mAh (42mm) batteries, and comes with a wireless charger.

It features connectivity options like Bluetooth 4.0LE, Wi-Fi 802.11 b/g and sensors like an accelerometer, ambient light sensor and gyroscope.

The Moto 360 second generation smartwatch is available via Flipkart and Myntna.

'Everything-proof' Bluetooth speakers from Altec Lansing

American audio electronics company Altec Lansing has recently launched three rugged Bluetooth speakers in India, namely, Life Jacket 2, Mini Life Jacket 2 and Mini H2O.

The speakers are compatible with smartphones and tablets running on Apple's OS, Android or BlackBerry along with laptops and other Bluetooth enabled devices.

The following are the different features of these rugged speakers.

1. Life Jacket 2: This speaker offers a lithium-ion battery, which provides backup of up to 16 hours. It comes with features like caller ID, voice confirmation, an aux-in jack, voice commands, NFC features, and a power bank capability which allows the user to remotely charge the smartphone from anywhere.

It has a 10.36 metre (33 feet) wireless range and is sand-proof, snow-proof, dust-proof, shock-proof, and floats on water.

2. Mini Life Jacket 2: This speaker offers 10 hours of battery backup and weighs 408 grams (0.9 pounds). It features voice

confirmation, an onboard microphone for speakerphone capability, and an aux-in jack along with an integrated carabiner. This speaker is also sand-proof, snow-proof, dust-proof, shock-proof and floats on water.

3. Mini H2O: These mini speakers come with a 10.36 metre (33 feet) wireless range and feature voice confirmation, an onboard microphone for speaker phone capability, aux-in jack, carabiner and up to 6 hours of battery life. Like the other two speakers, the Mini H2O is also sound-proof, snow-proof, dust-proof, shock-proof and floats on water.

The speakers are available via Flipkart, eBay and retail stores.
