Xiaomi's affordable smartphone with fingerprint sensor

Chinese electronics company Xiaomi has released the successor to last year's Redmi Note 4G, and it's called Redmi Note 3.

The new smartphone comes with a fingerprint scanner located at the back, which is a rarity in this budget segment. The device features a 13.9cm (5.5 inch) full HD display. It runs on MIUI7 software based on the Android Lollipop operating system and is powered by a 2GHz octa-core Media Tek Helio X10 chipset.

The lightweight smartphone is made entirely of metal and is equipped with a large 4000mAh battery. It is packed with a 13 megapixel rear camera with face detection, auto-focus and two-tone LED flash, along with a 5 megapixel front camera. The dual-SIM smartphone comes with connectivity options like 2G, 3G, 4G, Wi-Fi and Bluetooth.

The Xiaomi Redmi Note 3 is available in two variants. One has 16GB internal storage and 2GB RAM, and the other has 32GB internal storage and 3GB RAM. Both can be bought online and at retail stores.

Lightweight headphones from Zebronics for a 'Happy Head'

Computer peripherals and consumer electronics manufacturer Zebronics has launched a new range of Bluetooth wireless headphones in India with the brand name, Happy Head.

The headphones are designed with an adjustable headband and soft sponge-cushioned ear pads. The lightweight headphones have a built-in 250mAh battery that assures six hours of uninterrupted music. The device comes with a 3.5mm input option with a stereo cable, which can be used when the headphone battery runs out, along

with a microUSB port for charging.

The headset offers superior bass and sound reproduction with 40mm drivers and a highly sensitive microphone that allows users to have hands-free conversations.

The headphones are designed with a button for the phone and music controls to switch easily between calls and music, and to adjust volume levels while on the move.

The easy-to-carry headphones easily connect with any smartphone, MP3 player, PC, laptop or any other Bluetooth wireless enabled audio device.

They are available in black, brown, white and grey via online and retail stores.
