Successor to Logitech's UE Boom launched

The global provider of personal computer and tablet accessories, Logitech, has launched the successor to its popular Ultimate Ears Boom speakers that came out in June last year. Predictably, the new speakers are called Ultimate Ears Boom 2.

The latest model comes with an increased wireless range of up to 30.48 metres (100 feet), and the company claims that the speakers are 25 per cent louder than the first generation of Boom. The speakers are also weather-resistant and tolerant for rough use. They come with an IPX7 water resistance rating, and drop resistance is from up to 1.5 metres (5 feet).

These speakers can supposedly run for 15 hours on a full charge, and are designed with top buttons to control the music even in the absence of the phone. They can be connected to any other UE speaker to double the sound output. One can remotely turn the device on from the phone or use it as an alarm by simply using an Android OS or iOS app.

The UE Boom 2 also offers new colour combinations like CherryBomb, Phantom, Green Machine, Tropical and BrainFreeze.

These speakers are available online and at retail stores.

An affordable headphone series from Sennheiser

German audio company Sennheiser has launched its next generation HD400 series over-the-ear headphones. The series includes three headphones — HD451, HD461 and HD471. The HD461 and HD471 come in two variants each, the HD461i and HD461G; and the HD471i and HD471G. The headphones are compatible with Android and iOS devices.

The (G) version is for Android and the (I) version is for the iOS modules. The speakers are lightweight and come with a durable design along with noise cancellation technology. The devices are said to deliver enhanced stereo sound as the company has used native neodymium magnets inside the headphones.

The HD461 and HD471 models include detachable cables with an inline remote and microphones, enabling users to take calls and control music playback.

The HD451 includes state-of-art

Price:
₹ HD451 for ₹ 5000; HD461i and HD461G for ₹ 5,990; HD471i and HD471G for ₹ 7,990

transducers for improved sound reproduction. The HD471 variant comes with an additional 3mm cable, a gold plated plug and a 6.3mm stereo adapter for home Wi-Fi connectivity.

The headphones are available via the company's India e-store.
