

Wi-Fi range extender from TP-link

Networking solutions provider, TP-link, has launched its TL-WA855RE Wi-Fi range extender. The device helps users to overcome Wi-Fi dead zones and is capable of offering speeds up to 300Mbps.

The Wi-Fi extender comes with two external high gain antennae and delivers 802.11ac performance. The device supposedly boosts Wi-Fi signals so that they can pass through thick walls and ceilings. It has a compact wall-plug design along with LED indicator lights in the front to guide the user towards the best Wi-Fi signal strength.

The two external antennae with MIMO technology enhance the network by increasing wireless speeds and signals.

Price:
₹ 2,626

This helps strengthen the Wi-Fi signal coming from any router.

The device plugs into a regular electrical socket to boost a network's wireless signal. It can also be used to create a Wi-Fi access point.

The TL-WA855RE is available exclusively via Amazon.

One Plus' flagship smartphone launched

Chinese smartphone manufacturer One Plus has launched its much awaited flagship smartphone, the One Plus 3, with a fingerprint sensor.

The device comes with an impeccable design and a slim metal body. It has a 13.9cm (5.5 inch) full HD display with 1080x1920 pixels resolution, guarded by Corning Gorilla Glass 4. The smartphone is powered with the Qualcomm Snapdragon 820 processor paired with 6GB RAM and runs on Android 6.0.1 Marshmallow, out-of-the-box.

Backed with a 3000mAh non-removable battery, the device comes with its own quick charge technology called Dash Charge, which can charge the battery up to 60 per cent in just 30 minutes. The smartphone has a 16 megapixel rear camera with LED flash

and OIS, as well as an 8 megapixel front facing shooter. The modem on board the device offers 4G LTE Cat.6 connectivity with support for India's LTE bands. Other connectivity options of the smartphone include Wi-Fi 802.11ac, Bluetooth 4.2, NFC and GPS/A-GPS.

The One Plus 3 is available in grey, black and gold via Amazon, without any invites.

Address: One Plus, 5th Floor, Kabra Excelsior, Opposite Wipro Park, 80 Feet Road, Koramangala 1st Block, Bengaluru, Karnataka

Projector with interchangeable lenses launched

Taiwanese multinational, BenQ, has launched its first home theatre projector, the W800, with an option for interchangeable lenses built for custom installation.

Featuring the company's exclusive Cinema MasterTechnology, the projector comes with five optional lenses offering a range of 1.5 metres to more than 11 metres between the screen and the mounted location. It comes with a contrast ratio of 10000:1 and claims to provide true blacks. Targeted at consumers looking for a full HD3D projector, the device offers 6X speed RGB colour wheel and is tuned for the REC 709 HDTV standard.

The projector includes Digital Colour Transient Improvement and Digital Luminance Transient Improvement technologies, which heighten colour vibrancy in drastic colour transitions, without noise.

It can also be turned into an ISF-friendly projector by tweaking the advanced controls to independently control all six primary colours.

The BenQ W800 projector is available at retail stores.
