

“We help organisations reap the benefits of open source, while controlling security and the associated risks”

Bob Canaway, CMO, Black Duck

Security is crucial in the world of open source. But so far, there have been just a handful of companies that enable open source deployments in a secure and safe manner. **Bob Canaway, CMO of Black Duck**, in an interaction with **Jagmeet Singh** from **OSFY**, talked of the new solutions to secure open source deployments. Here are excerpts from the conversation.
