

Figure 3: Artist mode operations

pen down when drawing, and lifting it up when you want to perform a different action.

The buffer navigation commands to move right and left are the same as the 'C-f' and 'C-b' shortcuts respectively. You can move up a column using the 'C-p' shortcut, and move down a column using the 'C-n' key.

You can draw geometric shapes using *Artist* mode. To select a shape or operation you can use the 'C-c C-a C-o' key combination. This will provide a list of shapes and actions you can perform. This list is shown in Figure 3.

The shortcuts listed in table 2 are available for drawing specific shapes.

Table 2

Shortcut	Shape
C-c C-a e	Ellipse
C-c C-a p	Polylines
C-c C-a r	Rectangles
C-c C-a l	Lines

Figure 4 depicts an ellipse drawn using *Artist* mode.

Figure 5 is an example of polylines.

You can fill a shape using the 'C-c C-a f' key combination. Figure 6 shows a circular representation filled with dots.

You can also spray characters in the buffer using the 'C-c C-a S' shortcut keys. An example is shown in Figure 7.

Figure 4: Ellipse

Figure 5: Polyline

Figure 6: Circle fill

Figure 7: Spray

The character to be used for drawing can be changed using the 'C-c C-a C-l' shortcut. The character to fill shapes can be set using the 'C-c C-a C-f' key combination.

If you want to cut an area, you can draw a rectangle around it using the 'C-c C-a C-k' key combination. You can also copy the image area using the 'C-c C-a M-w' keys, and paste the same using the 'C-c C-a C-y' or 'C-x r y' shortcuts. To set the operation to erase text, you can use the 'C-c C-a C-d' key combination.

You can refer to the Emacs Wiki *Artist* mode for more documentation and help - <http://www.emacswiki.org/emacs/ArtistMode>.
