A curved smartphone from Panasonic

Japanese multinational electronics company, Panasonic, has recently launched its first 2.5D curved smartphone - the Eluga Arc, at an affordable price. The device features an 11.9cm (4.7 inch) HD IPS display. It is powered by 1.2GHz quad-core Qualcomm Snapdragon processor and runs on Android 5.1 Lollipop on top of FitHome VI.

The smartphone features a fingerprint sensor, which can be configured for five different fingerprints and commands, and can also be used for unlocking the screen, launching applications, picking calls, using the camera and locking apps.

The device is equipped with an 8 megapixel rear camera with an LED flash and a 5 megapixel front camera. Backed with an 1800mAh battery, the Eluga Arc can be charged 75 per cent faster with Qualcomm Quick charge technology, the company claims. Rich in technology innovation, the Arc includes an inbuilt sensor to operate home automated appliances.

The Panasonic Eluga Arc is available via retail stores.

Crystal clear Bluetooth speakers from Harman Kardon

Audio devices company, Harman Kardon, has launched its premium wireless speakers, One and the Esquire 2, in India.

The Harman Kardon One features an aluminium unibody design and can be used as a speakerphone. It has HTC Connect technology for easy pairing with HTC smartphones, and offers 2x6W stereo Bluetooth streaming. The HK One is a lightweight and travel-friendly device. It enables users to make conference calls anytime, anywhere. It also has an audio cable input. The HK One is equipped with a 2000mAh Li-ion battery, which supports up to five hours of playtime.

The Harman Kardon Esquire 2 is a sleek, ultra slim device crafted out of premium materials. The speakers support a teleconferencing system with quad-microphone voice logic noise- and echo-cancelling technology, and feature 360 degree voice-pickup for crystal clear conference calls. They have enhanced bass ports for a richer soundscape. The

Price:
₹ 14,990 for HK One
and Rs 19,990 for
HK Esquire 2

Esquire 2 has a rechargeable battery, which supports up to eight hours of playtime.

The 16W speakers have a USB port that acts as a charger, which ensures travelling professionals' smartphones are charged all the time. These speakers are stylish and easily portable.

The Harman Kardon Esquire 2 is available in graphite, black or champagne colours.

Both the speakers are available on www.harmanaudio.in.

Wireless Bluetooth earphones from Brainwavz

High quality audio devices maker, Brainwavz, has released a wireless Bluetooth earphones called BLU-200. These are designed with stylish matt aluminium body and an inline remote, which takes listening to a whole new level, according to company sources. The device is designed for easy mobility and is tangle-free.

The company claims the earphones deliver four hours of continuous audio playback as well as 100 hours of standby with a micro 60mAh battery, which can be fully charged in under two hours.

The Bluetooth 4.0 enabled device supports a range of 10 metres (30 feet), which enables users to comfortably be away from the audio source without any disruption to audio quality or performance.

Price:
₹ 3,499

A pair of ear-hooks is included to ensure extra security. The BLU-200 comes with three sets of silicone ear tips in small, medium and large sizes.

The Brainwavz BLU-200 earphones are available via amazon.in.
